PUT SOME ACTION ON YOUR FLOOR

The CRACK DOWN mission is a tough one. A futuristic city has been overtaken by a powerful force of mechanical men. Two elite agents must plant a series of time bombs to destroy their base and crush the rebellion.

The action is fast. An innovative split screen lets two players work individually or as a team. Twin "overview" screens scroll in response to players' moves. Countdown timers and a pulsating sound track raise game excitement and tension.

Winners don't use drugs
